

Prakash Chandra SUKHWAL

Lecturer & Consultant, Data Science Practice

✉ isspcs@nus.edu.sg

Profile

Prakash is a Lecturer & Consultant in NUS-ISS. He taught for various analytics modules at School of Information Systems, SMU Singapore for nearly three years prior to joining NUS-ISS.

He holds a MS degree in IT in Business Analytics from SIS, Singapore Management University (Singapore) and a B.Tech degree in Information and Communication Technology from DA-IICT (Gandhinagar, India).

He started his career as a software engineer and worked for a major IT firm in India for many years. He was a part of teams that developed web based applications powered by large data pipelines for business analysis & reporting on a day-to-day basis.

He also worked as a research scholar (intern) for TCS-iCity labs at SMU working on web scrapping, text mining, sentiment analysis and dash-boarding.

Educational Qualifications/Professional Certification

- Master of Information Technology in Business, Singapore Management University
- Bachelor of Technology, Dhirubhai Ambani Institute of ICT

What I Teach
