

Aaron CHUA

Principal Lecturer & Consultant, Digital Strategy & Leadership Practice

✉ issckk@nus.edu.sg

Profile

Aaron has more than 18 years of IT technical, scrum and agile experience. Prior to joining NUS-ISS, he was the Agile Coach with Singapore Pools. He coached projects using agile methodologies and help to cultivate agile cultural in the company. Before joining Singapore Pools, he was the Scrum Master with the Viseo Asia Singapore. One of his key achievements included the successful implementation of scaled scrum framework for all feature teams working on a smartphone platform.

He started his Agile journey since 2011 by using scrum for small agile projects and LeSS methodology for larger projects. His first agile pathway was with Maloft Pte Ltd as IT Manager cum Agile Coach. Subsequently, he continued to gain more agile project experiences as Chief Operations Officer with Keritos Pte Ltd and Scrum Master at IBM Singapore. During his tenure with Maloft, he managed to implement some major agile projects, such as online gaming, financial reporting, trading and monitoring platform by using scrum, Kanban, lean software development and extreme programming. He had also worked as IT Project Manager at Kelly Outsourcing and Consulting Group and Hewitt HR Delivery Services Pte Ltd. He started as a system developer and analyst during the earlier part of his career. Aaron graduated with a Bachelor of Science (Information Systems and Computer Science) from National University of Singapore.
