

Dr. Adam CHEE

Chief, Smart Health Leadership Centre

✉ isscws@nus.edu.sg

Profile

Adam has more than 20 years of health informatics, digital health, innovation, technologies and business experience. Prior to joining NUS-ISS, he was the Director of BNHC Pte Ltd spearheading many significant and notable projects across Asia Pacific and Middle East. He is responsible for providing digital health transformation expertise to both health(care) and solution providers via consulting assignments, executive coaching, training, leadership and speaking engagements. He led a few international projects including digital health transformation for Saudi Health Council, Kingdom of Saudi Arabia, tele-health solution for LifeWatch AG, Switzerland and Health Information Exchange system framework for Integrated Health Information System (IHIS) Singapore etc.

His unique background also includes working in business, market development and product management with established organisation including AGFA Healthcare, CrimsonLogic; innovative startups and leading the Health IT and Medical Imaging practice within Frost & Sullivan Asia Pacific. He 'earned his stripes' as an industry pioneer, implementing and managing clinical information solutions during his tenure with Singapore Health Services (SingHealth) and have since worked across the healthcare ecosystem, including the primary care sector, private and public tertiary hospitals, research institutes, government health agencies and NGOs across the globe. He had also worked in the areas of IT technical, system and technology management during the earlier part of his career.

Adam serves on several relevant committees including (but not limited to):

- Chairman for the Technical Committee (TC) for Health Informatics under Singapore Standards Council, Enterprise Singapore
- Chairperson, Health Level Seven (HL7) Singapore
- Council Member, HL7 International
- Founding Executive Council Member, HL7 Asia

- Founding Co-Chair, HL7 Korea-Singapore Research & Innovation Alliance (HKSRIA)
- Expert, Roster of Experts (Digital Health) at World Health Organisation (WHO)

A firm believer of lifelong learning, Adam is a "Specialized Generalist" with a Doctor of Industrial Technology (Health Informatics), Master of Business Administration, Master of Public Health and Master of Science (Applied Computing). He also holds the following Professional Fellowship :

- FRSPH – Fellow of Royal Society of Public Health (RSPH)
- FHIMSS – Fellow of Healthcare Information and Management Systems (HIMSS)
- FACHI – Fellow of Australasia College of Health Informatics (ACHI)

Adam's detailed profile is available at www.BinaryHealthCare.com/Adam
